1. References:

b. VI of the Case Director on 11 February 1995

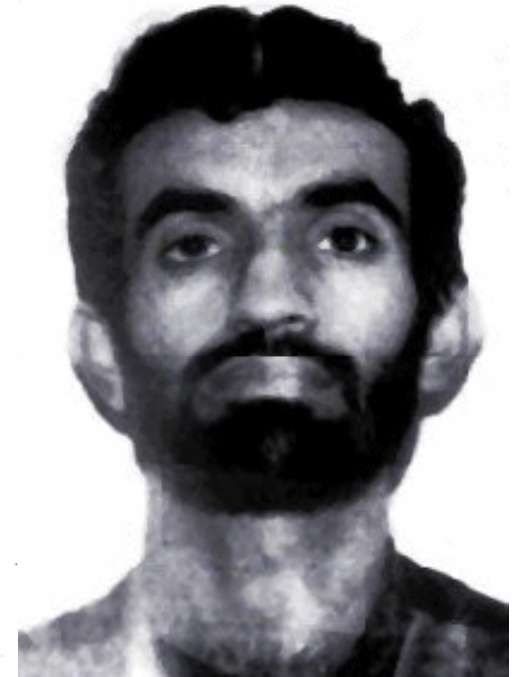

2. The following are the information that were disclosed during the debriefing with Abdul Hakim MURAD on 11 February 1995:

2.1 Al' Gama'at Al Islamiya and Others Involvement

a. Abdul BASIT does not explicitly devulged any thing about getting involved with the Egyptian group nor with the the Algerian group. However, during BASIT's training in Afghanistan on 1993, a six (6) months training, BASIT worked a lot with a good numbers of Egyptians and Algerians and they make good friends.

b. Accordingly, BASIT is planning to go to France, Egypt and Algeria after their activities here in the Philippines. The purpose was to train those Muslim brothers thereat, on using Casio watch as a timing device, chemical mixtures to compound bombs and to share his expertise on eluding detection on airport's x-ray machine and eventually smuggling this liquid chemical bombs. Furthermore, France has a lot of Algerians staying and that these Egyptians and Algerians has no experiance on making these bombs and does not know the basic of smuggling liquid bombs through the airport.

c. During his first visit on the Philippines on the first half of 1994, BASIT visited Mindanao and was able to meet the leaders of the Abu Sayyaf Group (ASG) wherein he promised to train them on whatever knowledge he knows (probably on terrorism - EXPLOSIVES). However, he saw the problem that the ASG's members only knows about their "assault rifles" and nothing more, illiterates. So, he has some problem on the intellectual capacity of these ASG's members on comprehending the highly sophisticated explosives that he's going to teach them. And it would be the reason why he himself will do the terroristic activities for the ASG's credit and for the world to note that there is such as an Abu Sayyaf Group that exist. In addition, the financial support will be coming from a certain AMIN... Yemeni and a rich businessman...
