"The Popular Resistance Movement 'Jondollah' declares that one of the heroic men of Baluchistan—land of martyrdom and resistance—named Abdulwahad Mahmadi Sarawani, was able to kill tens of commanders and units from the Iranian Revolutionary Guards, Basij Militia, and officials from the Ministry of Intelligence (al-Ittela'at, literally 'information') by carrying a martyrdom operation in Sarbaz City, one of the cities in Baluchistan Province."

"This martyrdom operation comes as a response to the crimes of the Iranian regime against the Baluchi people; the unarmed and oppressed, who loses everyday a number of its children sacrifices to the crimes of this regime that murdered throughout the last year only hundreds of young men from this province. They were killed between gun shots, hangings or martyred under torture, and Sarbaz City had the biggest share of tens of the best of its innocent people. And from amongst them were the pious Ulama Hafidh Salahadin and Mawlawi Khalilallah Zare'i—who were executed for defending the rights of our oppressed people. Additionally, they executed the brothers Tariq and Asad Wafa'i, and three others from the city, and those are: Thabihalla Naro'i, Hajji Noti Zahi, and Ghulam Rasul Shaho Zahi, and all of those were guilty of Baluchi and Sunni. These crimes left to the Baluchi people no other choice except resistance and responding in the same manner to the Iranian regime."

"And despite outcries and previous warnings that were directed Iranian regime, and demands to stop its crimes and oppression against the Baluchi people, but this injustice hasn't stopped and kept increasing day by day in many shapes and colors, whether racism and discrimination and murder and monstrous executions. Today, this martyrdom operation came in hopes to be pain balm to the wounds of the people of Baluchistan, and many years have passed as it stood bleeding non-stop, and in resistance to stop the crimes of daily executions carried out by the oppressive and tyrannical regime in Tehran."

"Also, this is considered a warning to the Iranian Guards to stop its schemes and refrain from creating collusion and struggle between the tribes and families of Baluchistan."

"The popular resistance movement 'Jondollah' has always sought to avoid violence and bloodshed, and has warned the Iranian Regime continuously, except that this regime, instead of answering to these warnings and good-will, it increased its monstrosity; targeting our innocent people, as every time it fails to face our resistance heroes, it seeks revenge against innocent civilians and the unarmed Baluchi civilians, and this is what we expect it to carry out again after this martyrdom operation, instead of solving the Baluchi case rationally. This operation, for the second time, has shown the determination of the Baluchi people to present sacrifices. It also

shows the capabilities of the resistance and the heroism of its men in facing the Iranian Regime, and it also shows the weakness and incompetence of these [Iranian] forces in facing the resistance of the Baluchi people, who are determined to shield against oppression, and to gain its freedom and dearness until the last drop of its blood.”
